

**26 August, 13.15 - 13.45**

***PRESENTATION OF THE NGO  
« ACADEMICS WITHOUT BORDERS »***

**By Prof. Robert LAURINI, President of USF-AWB**

Throughout the world, in one hand there exist universities or higher education institutions which want to be modernized, and in the other hand there are senior and experienced academics who have time.

Based on this observation, an NGO (USF-AWB) was recently created in order to

- Establish a place of collating offer and supply regarding universities,
- Establish a catalog of senior or experienced academics,
- Advise or help in the creation/enhancement of bachelor, Master degrees,
- Give courses in the state-of-the-art domains,
- And advise and help in the creation of research laboratories and doctoral studies.

The scope of this presentation will be to outline:

- the scope of USF-AWB,
- the actions of the founders,
- the current activities,
- and the way how to cooperate.

One of the most recent actions was contributing to up-to-date courses in Haiti during summer 2010.
