

ISPRS WG IV/5
**1st International Workshop on Pervasive Web Mapping,
Geoprocessing and Services (WebMGS 2010)**
August 26-27, 2010, Como, Italy

Oral Presentation Instructions

Information is given below about the arrangements for oral presentations for WebMGS 2010.

1. Each presentation slot is timetabled to last 15 minutes. This includes time for all questions and presenter changeover. We suggest you plan to talk 12 minutes, keeping in mind that 1 slide normally takes 1 minute to talk too.
2. Session chairs will be instructed to be strict with their time keeping, to allow time for questions.
3. It will be necessary for you to upload your presentation before your session. The chair of each session will be present at least 15 minutes before the start to verify that all presentations have been uploaded. In the conference room there is a dedicated PC and an assistant who will help you in uploading your presentation.
4. File format must be .pdf, .odp, .ppt or .pptx.
5. Please label your file <session-number_surname.odp> (or .pdf, .ppt or .pptx).
6. Please turn up at your session at least 10 minutes prior to the start time and make yourself known to the chair of the session.

If you have any questions, email: webmgs2010@como.polimi.it
